

SHERLYN GUADALUPE AVILA GONZALEZ

San Francisco de los Romo, Aguascalientes | 449 437 7315

sherlynavigonzalez2@gmail.com | English level: B1 (Oxford Test of English)

PROFILE

TSU student in Artificial Intelligence with creative and critical thinking, oriented to problem solving and autonomous learning. I stand out for my adaptability, resilience and empathy, qualities that allow me to integrate effectively in multidisciplinary teams.

I am looking for a professional opportunity where I can develop my potential, acquire practical experience and contribute with commitment and enthusiasm to the growth of the organization. I am motivated to learn, add value and become a professional who makes a positive difference.

RELEVANT PROJECTS

- Project “Falcon” - Cybersecurity Hackathon (2024)

Intelligent vision system that through convolutional neural networks helps us to make predictions about incidents (brawls, assaults, robberies) through security cameras, system integration of AI modules and web and mobile platforms.
